Elisabetta Piacquadio

Skills

- Java
- Spring Boot
- PostgreSQL
- RESTful APIs
- Python
- Javascript
- React
- Redux
- HTML&Css
- Sass

Work Experience

My English School

2023-2025

Front Office Assistant

- Receptionist and administrative support at an international English language school. Through daily interaction with colleagues from diverse backgrounds, I enthusiastically learned new perspectives and cultural habits, strengthening my communication and collaboration skills.

Pronovias Group

2018-2022

Front Office Assistant

- Receptionist and logistics manager at a bridal boutique, a highly emotional environment that taught me how to manage complex situations and moments of high stress, maintaining clarity, empathy, and great attention to detail, even under pressure.

Languages

- Italian - native speaker
- English - Intermediate

Who I am

A growing junior full-stack developer, driven by enthusiasm and curiosity. Empathetic and sociable, I bring a background in administration and customer service, which has allowed me to develop precision, organization, and excellent interpersonal skills. I seek challenges that allow me to learn, grow, and make a concrete contribution.

Education and training

Master Full-stack Web Developer

2026

EPICODE - Institute of Technology

- Intensive Full-Stack Development training course focused on end-to-end web application development, with a hands-on approach based on real-world projects.

Python Programming Fundamentals Professional Certificate

2025

Microsoft

- Python programming basics: syntax, data structures, flow control, debugging, and basic optimization.

IGEA Technical Commercial Diploma

2012

ITCG Galileo Galilei

- Specialized training in business economics, accounting, law (civil and tax), and administrative management.

- I authorize the processing of my personal data contained in my CV pursuant to Legislative Decree no. 196 of 30 June 2003 and the GDPR (EU Regulation 2016/679).
